

Empowering you

to take an active role in your **cancer care** journey.

Why Noona?

Dealing with cancer isn't easy, but the tools available in Noona can empower you to take an active role in your cancer care journey. Noona is an online app that enables you to report your symptoms prior to your cancer care appointments. The cancer care team reviews your responses during your visit and uses this information to make recommendations about your care.

Noona can be easily accessed at any time from the Noona website or app.

With Noona, you can:

- **Report** your symptoms by completing the online questionnaires prior to your visit.
- **Track** your symptoms and how you are feeling by using the wellbeing diary.
- **View** some of your cancer care appointment schedule.
- **Receive** notifications from your cancer care team.

Ask your cancer care team if Noona is right for you.

Patients enroll to Noona by invitation only.

To use Noona, you will need a computer or mobile device with an internet connection and email address.

Learn more

Noona is a third-party online app that is being made available free of charge to cancer care patients by Eastern Health's Provincial Cancer Care Program of Newfoundland and Labrador. All personal health information reported is kept confidential and only used by the health-care team to provide the best and most appropriate care for patients and their families. Noona is not intended to diagnose conditions or replace the medical decision-making process. Any medical decisions rest solely with the health-care provider.
